

5. Use the table below to determine the delivery rating.

- a. Update the rating every time a delivery is late. If the customer's delivery performance improves consistently after three months, the rating may be changed to a more positive rate. Use the "rating date" column to determine how long the customer has had improved performance.

Delivery	Description
----------	-------------

3	Five or more days past the promised delivery date
2	3-4 days late
1	+/- 2 days

6. Assign an occurrence rating according to the chart below. This is based on how often we order from the supplier.

Occurrence	Description
3	1 week - 1 month
2	2-6 month
1	Every 7 months or more
