

Monthly Business Review

Feb. 12, 2026

Agenda

1. QMS Update
2. Operations - Matt
 - a. Customer Reviews
 - b. Process Changes
3. Business Development
4. Action Items
5. Risk/Opportunity
6. Calendar Review
7. Add'l Discussion Points & Conclusion

QMS Update

Quality KPIs

Process	KPI	GOAL	PL1	PL2
Inventory	Supplier's Avg. Score (quarterly)	90%	N/A	93.78%
Production	Scrap rate	1%	1.2%	1.2%
Production	OTD	90%	46%	100%
Production	Customer returns	3%	3.5%	0%
Production	First Article Approval	80%	N/A	100%

Corrective Actions Update

Open CARs	Status
N/A	

Nonconformities – Formal

1. Rock West Laminated Tubes NCR-26001 Complete
 - a. Issue: Lack of Fill
2. StrataG Fuselage Tube 26-00028 RMA Issued, Tube Replaced
 - a. Issue: Delamination found after machining
3. StrataG Fuselage Tube 2500590 - RMA Issued, repair

Internal Nonconformities

Scrap	R&D	Repair
STR2600003 - seam gap	STR2600006	STR2500580
STR2600005 - poly	ROC2600001	STR2500577
ROC2600009 - delam	ROC2600002	STR2600035
ROC2600015 - lack of fill	RD2600002	
STR2500615 - delam		
STR2600042 - ridges		
ROC2600014 - ply schedule		

First Articles

1. StrataG Fuselage Tube - SG022317, Accepted 1/7/2026

Operations

Matt Tandy

Operations Update

- January Customer Survey Average Score - 45/50
 - Google Reviews
- New Customer Production
 - Montana Rifle Company
- New Product Production
- New Equipment

Operations Update

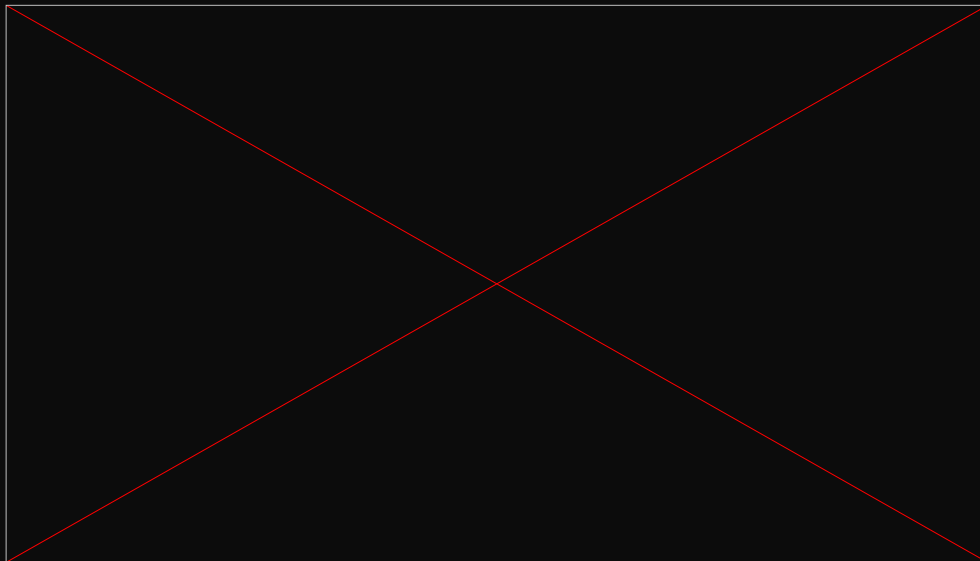

Production Changes

Number	Description	Purpose	Validation Complete Y/N
010	Monitor and record temperature of mandrel and lay up table prior to laying up tubes. Parameters set at 70°F - 80°F for optimal results.	Increase consistency of surface quality	N
011	RW Laminate Tube changed to 98" - NEED WRITTEN APPROVAL AND CHANGE SHEET	Increase efficiency, reduce surface defects	N

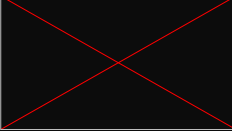

Business Development

Chase Wolk

Business Development Outlook

230 Hamer Rd, Owens Cross Roads, AL 35763 (HQ & Manufacturing)

Market Position & Competitive Landscape

Tier 1 —

Global materials producers Hexcel, Toray, Teijin dominate supply of carbon fibers/resins Tier-1 companies control roughly 45–50% of revenue share globally Providing structural materials for UAV manufacturing

Tier 2 —

Aerospace/UAS component manufacturers Examples: Hawthorn/Spintech producing structural airframe components at scale for defense programs

SPECTRWORKS-manufacturing composite UAS parts to scale OEMs production capabilities

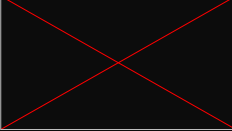

Composites Universal- building wings, fuselages, booms, and panels.

These firms typically support: Prototype-to-production ramps Aerospace quality documentation Structural aerostructure fabrication

Tier 3 —

UAS OEMs / integrators Example: Griffon Aerospace designing and producing UAV systems and composite structures with thousands of aircraft delivered

AG Advanced Technologies-A proven UAS and aerospace composites supplier with years of experience in manufacturing high-end composite solutions. We are a highly agile competitor with infinite possibilities in this marketplace

Current Pipeline & Near-Term Opportunities

- AEVEX UAS Heated Pitot Tubes-

- I have been working with AEVEX Tactical Systems to offer them a heated pitot tube solution

- AEVEX has shown great interest and requested a slick sheet on our potential product

- I supplied AEVEX with the slick sheet and additional support, as a result AEVEX has agreed to fund a first article of our heated pitot tube solution

- The AEVEX PM for this effort has relayed to me that upon approval of our first article AEVEX will release a PO to us for QTY. 1,200 heated pitot tubes

- Contract Value**- \$420,000

- PWIN Opportunity**- HIGH

- IFRCO-QTY. 25 Bandit Order-

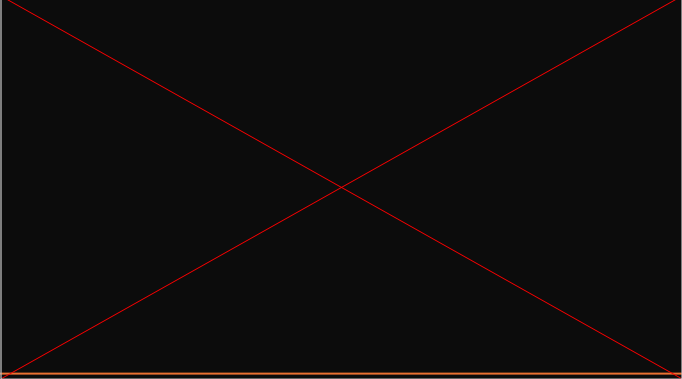

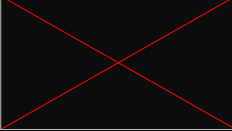

- Strata-G Solutions is working to reduce the systems unit cost to \$80,000-\$90,000

- If Strata-G can reach the customers cost needs then IFRCO will place an order for the manufacturing of QTY. 25-40 Bandit aircraft

- Contract Value**- \$675,000-\$1,080,000

- PWIN Opportunity**- HIGH

TOTAL Pipeline Value- \$1.5M

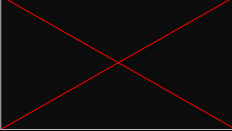

Near-Term Opportunities

- **RED-SIX Low-cost Aerial Target-**

- Customer has relayed need for a low-cost aerial target with a unit cost of 30-40k
- Customer is currently TDY for the next two weeks and requested an initial concept review meeting once they return

Contract Value-TBD

PWIN Opportunity-High

Revenue Forecast

Strata-G Fuselage Tubes:

We have delivered 149 tubes and have 151 remaining

The revenue generated so far is \$195,935

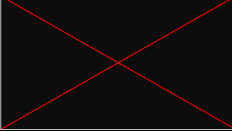

Total PO Value- (SG022317) \$394,500

Rock West Fuselage Tubes:

We have delivered 0 tubes and have 245 remaining

Total PO Value- (PO014332) \$189,875

REVENUE TOTAL- \$584,375

60-90 Day Execution Plan

- Implement installation of improved fuselage tube rolling table
- Manufacture and deliver AEVEX heated pitot tube first article
- Support STRATA-G in landing IFRCO contract for manufacturing of QTY-25 Bandit aircraft
- Continue internal design of AG Advanced Technologies conceptual low-cost aerial target for RED-SIX
- Host RED-SIX conceptual design review of low-cost aerial target
- Engage top defense primes and UAS manufacturers, Get AG Advanced Technologies into active programs, not just onto lists
- Participate in key defense industry events ex. AAAA Drone

Action Items

Laurie Tandy

Action Items Status Update

Item	Source	Responsible Parties	Due Date	Status
Epoch	Matt & Glenn	Glenn	ongoing	Phase 2
Bank Transition Plan	Matt & Dave	Dave	ongoing	Phase 1 will be LOC application
ACMA Customer List	Business Review	Steve	Until complete	Not available until spring 2026
Performance metrics for Epoch	Dave - business review	Glenn, Tasha	TBD	

Action Items Status Update

Item	Source	Responsible Parties	Due Date	Status
Update company voicemail	Angie - business review	Glenn	9/11/2025	Complete.
Acquire backup hard drives; schedule auto backups	Business review	Glenn	11/13/2025	Complete.
Reach out to Alamo re: bent pillars. Determine need for new subs.	Business review	Glenn	12/11/2025	Complete. AG inspected subs for defect - no issues found.
Timeline and budget for CMMC	Dec Business Review	Matt		

Action Items Status Update

Item	Source	Responsible Parties	Due Date	Status
Continuity plan for chief engineer position	Dec. Business review	Matt & Laurie		
Research financial counseling and training	Business review	Angie & HR	ongoing	
ITAR Training created & conducted	ITAR/AS	Matt & HR	11/13/2025	
Meeting for PL1 issues: trends, tracking, reporting & oversight	Dec Business Review	Matt		

Action Items Status Update

Item	Source	Responsible Parties	Due Date	Status
Identify actions to be returned	Business review	Matt & Timmy	12/31/2025	complete
Finalize details for Christmas party	Business Review	Angie	12/11/2025	complete
Clarify Tasha's role as PM	Angie requested	Glenn, Matt	ASAP	

Organizational Risks and Opportunities

Calendar Review

Calendar Review

Short Term Events (30 days):

- i. Feb 16 - President's Day
- ii. Feb 16-20 - Dave & Angie vacation
- iii. March 11 - birthday snacks
- iv. March 12 - Business Review
- v. March 16-20 - Calibration Week
- vi. March 27 - all Tandy's gone

Calendar Review

Mid-Term Events (31-90 days):

- i. Apr 3 - Good Friday
- ii. Apr 8 - Birthday snacks
- iii. Apr 9 - Business Review
- iv. Apr 15 -17 - AAAA Warfighting Summit (Nashville)
- v. May 1 - Labor Day
- vi. May 10 - Mother's Day
- vii. May 13 - Birthday snacks
- vii. May 14 - Business Review

Long-Term Events (91+ days):

- i. July 18-23 - Matt & Laurie vacation
- ii. Sep 3-15 - Matt & Laurie vacation
- iii. Nov 17-19 - AAAA Cribbins Futures Forum (Huntsville)

Conclusion
